

I am a K-love listener and i don't appreciate that you are trying to prioritize the 104.9fm stations please keep the k-love sound waves stronger so that other people could listen to more encouraging music. k-love has really made a difference on my life and my priorities, which is my faith and family. Not only do I enjoy the music but also my kids choose to listen to music that gives them encouragement and doesn't depress them. the music that is played in 104.9fm only makes people want what they have bling-bling (money) and is very sexually explicit. And with K-love it really gives us the option to listen to music that helps us through the day. please in the name of JESUS CHRIST don't change K-love it really does make a difference in people's lives.

thank you, The Canada family
